Product Name :
Free Fall Sensor

Product Code :
LBNY-0004-780067

www.laboratoryinstrumentindia.com

Description :

Free Fall Sensor

Technical Specification :

Free Fall Sensor :

Provide a full setup to calculate rectiligne movements of a free fall body.

Equivalent or better alternatives technically and pedagogically may be accepted.

Photogate-Pulley System:

Measures linear and rotational motion

Provide photogate and pulley

Spatial resolution : 2cm.
