Product Name :

Coverall with Standard Fit Hood, Attached Socks

Product Code :

LBNY-00017-11000334

Description :

Made of nonwoven fabric wood-pulp/polyester blend treated to provide fire retardant and liquid repellancy. Tempro coveralls are antistatic and breathable and can be worn over primary thermal protective garments as a first line of defense for wearer and thermal garments underneath.

Provide enhanced protection from moisture, sparks and flames for applications in steel mills, coal mines, refineries, laboratories, and by utilities workers.

6 SFR protective coveralls with standard fit hood and attached socks help extend the life of your flame-resistant garments.

Light blue. Case of 25.

Disposable protection against nuisance contamination by solids and nontoxic liquids. Front zipper and collar with serged seams for added protection. No elastic. Set sleeve for greater arm movement.

Technical Specification :

Coverall with Standard Fit Hood, Attached Socks
